Right censored survival outcomes: on the use of logistic regression and longitudinal causal inference
Part 2: longitudinal causal inference

Thomas Alexander Gerds

Section of Biostatistics, University of Copenhagen

Overview

- 9:15 Target trial emulation (30 min)
- 9:45 Practical I (30 min)

break (15 min)

- 10:30 Roadmap of statistical learning (30 min)
- Practical II (30 min)
- free time / time for student-teacher interaction (30 min)

lunch (60 min)

- 13:00 Longitudinal targeted minimum-loss based estimation (30 min)
- 13:30 Practical III (30 min)

break (15 min)

- 14:15 Software tutorial (30 min)
- 14:45 Practical IV (30 min)
- free time / time for student-teacher interaction
